The limitations and information contained herein either supplement or, in the case of conflict, override those in the flight manual.

PERFORMANCE CORRECTION

To allow for the performance determined for this series of aeroplanes, the following adjustments must be made to the performance scheduled in the Owners Manual.

1. Increase the take-off distance by 3%
2. Decrease the scheduled rate of climb by 30 ft/min.
NOTE that this will affect the time, fuel and distance to climb (altitude) data.

This adjustment is to be applied in addition to any other adjustment of performance specified in the Owners Manual.
